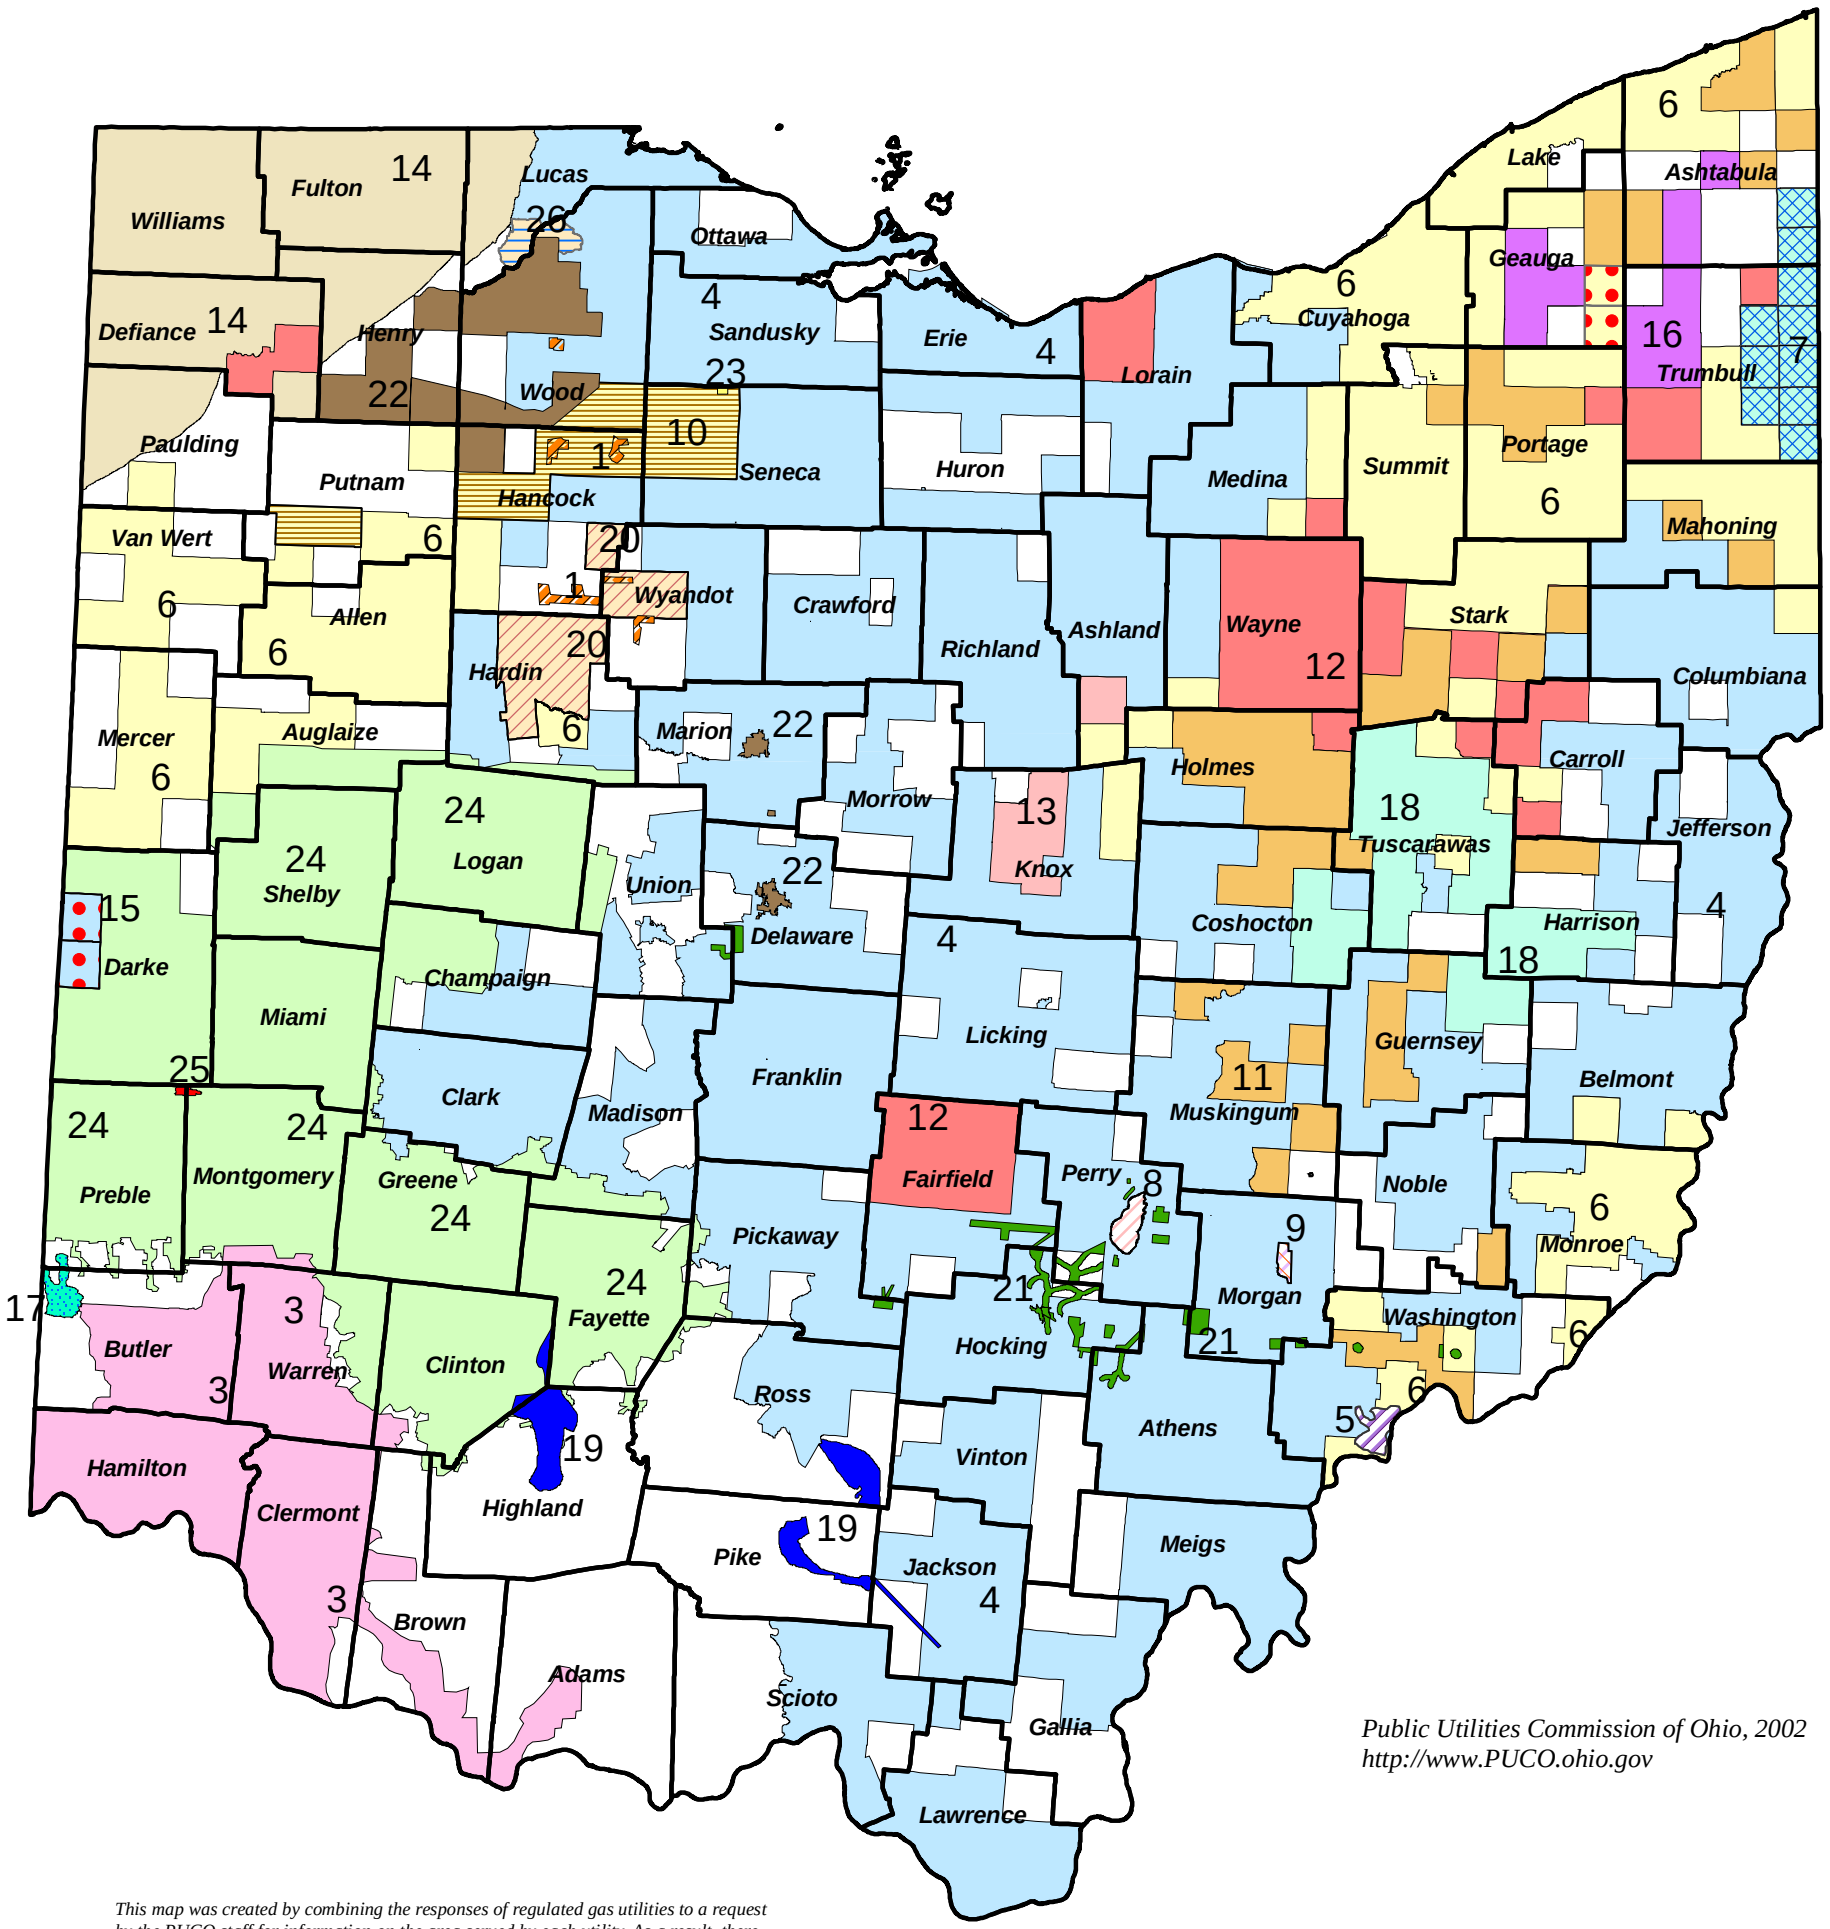
PUCO Regulated Natural Gas Companies



Public Utilities Commission of Ohio, 2002
http://www.PUCO.ohio.gov

This map was created by combining the responses of regulated gas utilities to a request by the PUCO staff for information on the area served by each utility. As a result, there is some degree of overlap of the service areas claimed by the utilities. Also, some areas (shown in white on the map) were not included in any of the responses. This does not necessarily mean that there is no gas service in these areas. We make no claims to the accuracy of this information at this time. Information presented here should be independently verified before using it.
